## Abstract

本演講從理論與實踐角度，闡釋發展故事書教材予本港少數族裔幼稚園學童有效學習中文的方法。

講者從認知語言學的語義框架理論，探討語義框架教學與幼稚園主題式教學的異同。分享亦包括五步驟教學法、文化回應教學，以及手機應用程式如何延伸在家學習。

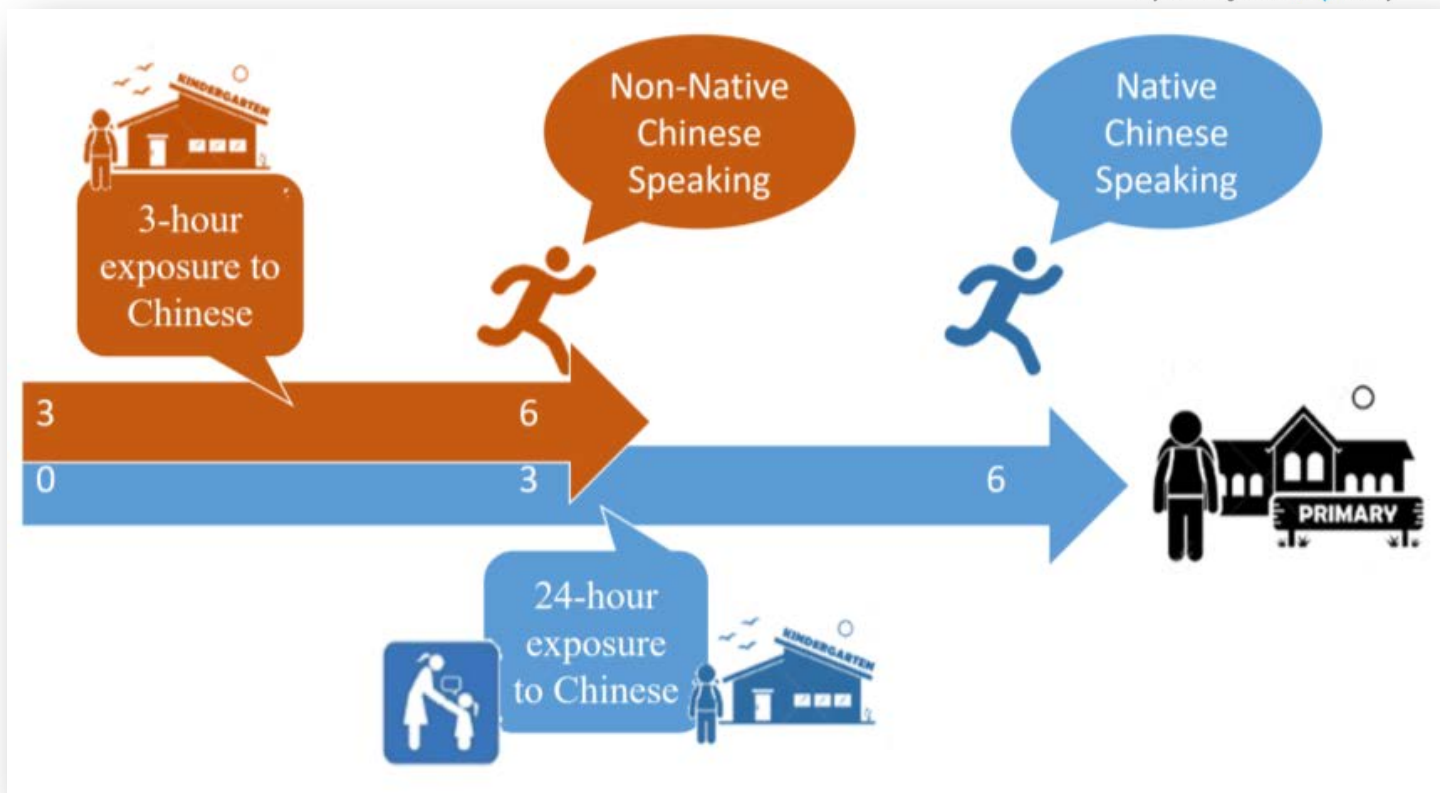

The talk aims at introducing the theories and practices for development of storybooks to support the learning of Chinese of the ethnic minority kindergarten students in Hong Kong.

The speaker will explore the frame-based approach of cognitive linguistics, highlighting the similarities and differences between frame-based and theme-based curriculum adopted in the kindergartens. The presentation will also cover the five-step of storybook reading, culturally responsive pedagogy, and the use of mobile app in extending language learning at home.

## 「文化回應教學」與 國小讀寫課程設計

黃靜惠·著

### 伍、文化回應教學課程設計的實例

近年來以文化回應教學課程設計的實例不勝枚舉。例如：乾華國小位於台北縣石門鄉，是一個依山傍水的鄉下偏遠小學，茶是石門鄉最重要的經濟作物之一，當地盛產鐵觀音茶，乾華國小擁有一塊全台北縣唯一的茶園，教導學生認識茶葉種類、採茶及製茶的過程與技術等等茶園相關知識，使得茶園教學成為該校教學特色。乾華國小將在地資源轉換成有利於學生感知的結構性情境，使學生藉由具體而直接的經驗，主動建構自己的知識與價值；不僅拉近了學校與社區的距離，學生對社區的認同增加了，能力也獲得更多元的展現。

然而這些文化回應教學課程設計，大部分融入自然與生活科技、社會與藝術與人文的領域中，較少以語文領域為主軸，研究者基於教育現場的需求及有限人力下的情況下，本研究採用附加模式，以當地文化脈絡為基石，配合課本單元主題與分段能力指標，設計一套為本校三年級學童所量身訂做的讀寫課程，期能增進學生的學習興趣進而提升學生的語文能力。

經驗與教育

## 第八章 經驗乃教育的方法和目的

在我所有說過的話中，我姑以為這原則正是正確的，這原則就是教育如要在個別學習和社會上成就它的目的，必須根據個體的實際生活經驗。對於接受這原則我並沒有作過辯論。教育上的守舊者及急進者對於現在的整個教育情境均深表不滿。代表這兩派教育思想的聰慧人們至少有這麼多是同意的，即教育制度非向着科學時代以前之理智和道德標準而倒退，即向着科學方法而前進，便是在發展經驗的可能性上；對於這方法繼續作更廣大的應用。我只陳述幾個必須履行的條件，假如教育採取後一路程。

我是如斯確信教育的潛力，當教育是視為日常經驗發展的聰明指導者，以至我不覺得批評別個路程和辯護經驗路程為必要的。在我看來，採取這個路程所有的唯一失敗原因，是在於經驗和試驗方法未得適當的概念。世界上沒有一種訓練能比經驗的訓練更嚴肅，因為它是受聰明的發展和指導所試驗。所以對於新教育的標準、目的及方法，我所能見到的唯一理由，是教育者雖公然採納這些標準、目的及方法，而在實際上並不遵守牠們。新教育的路程，我會着重的說過幾次不比舊教育的路程容易走，而是更辛苦更困難的路程。在

Instruction on Storybook reading

# Pedagogy- Shared Picture Storybook Reading

Don Holdaway

Holdaway's evidence and that of researchers on literacy development suggest that children with a background of Book Experience since infancy develop a complex range of attitudes, concepts, and skills predisposing them to literacy.

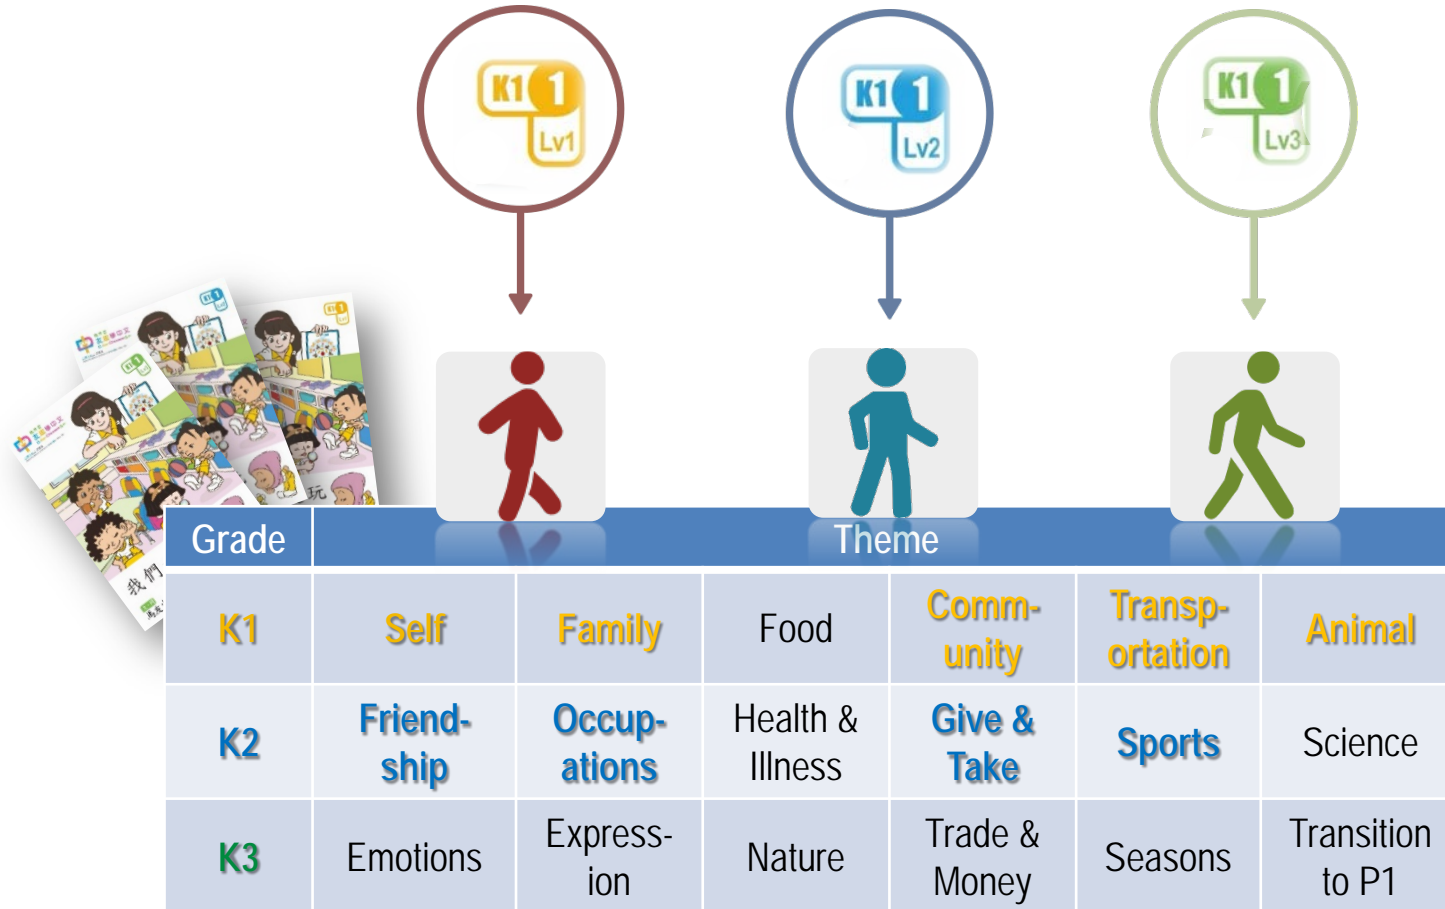

Another aspect of the problem of numbers concerns the visual intimacy with print which characterizes pre-school book experience. Teachers have always used the special power of reading to a group of children as an important but separate aspect of their language teaching, but they have seldom brought that power over into the centre of the instructional programmes in reading and written expression.<sup>2</sup> Reading to a group of children in school has little instructional value simply because the print cannot be seen, shared, and discussed. The parent is able to 'display the skill in purposeful use' and at the same time keep before the infant's attention the fact that the process is print-stimulated. Teachers can do the same by using enlarged print for the experience of listening to stories and participating in all aspects of reading.

Suppose we begin by taking half an hour from each day in a new-entrant or kindergarten classroom—it could be half an hour from the developmental period or just a slight extension of storytime. In preparation, we make a selection of books which we know are often favourites for young children or that we judge from our experience of children's books will be enjoyed and may become favourites. We look for fairly simple stories that the children will readily understand, but we don't worry too much about vocabulary—we are going to follow the model as closely as possible using good sound common-sense just as a reasonable parent would do. Some of the stories will be old nursery favourites. We need lots of books—at least twenty for the first fortnight—and we hope that ten or twelve of them will become real favourites.

# Differentiated picture storybooks and learning packages

## ❖ 從「主題」到框架

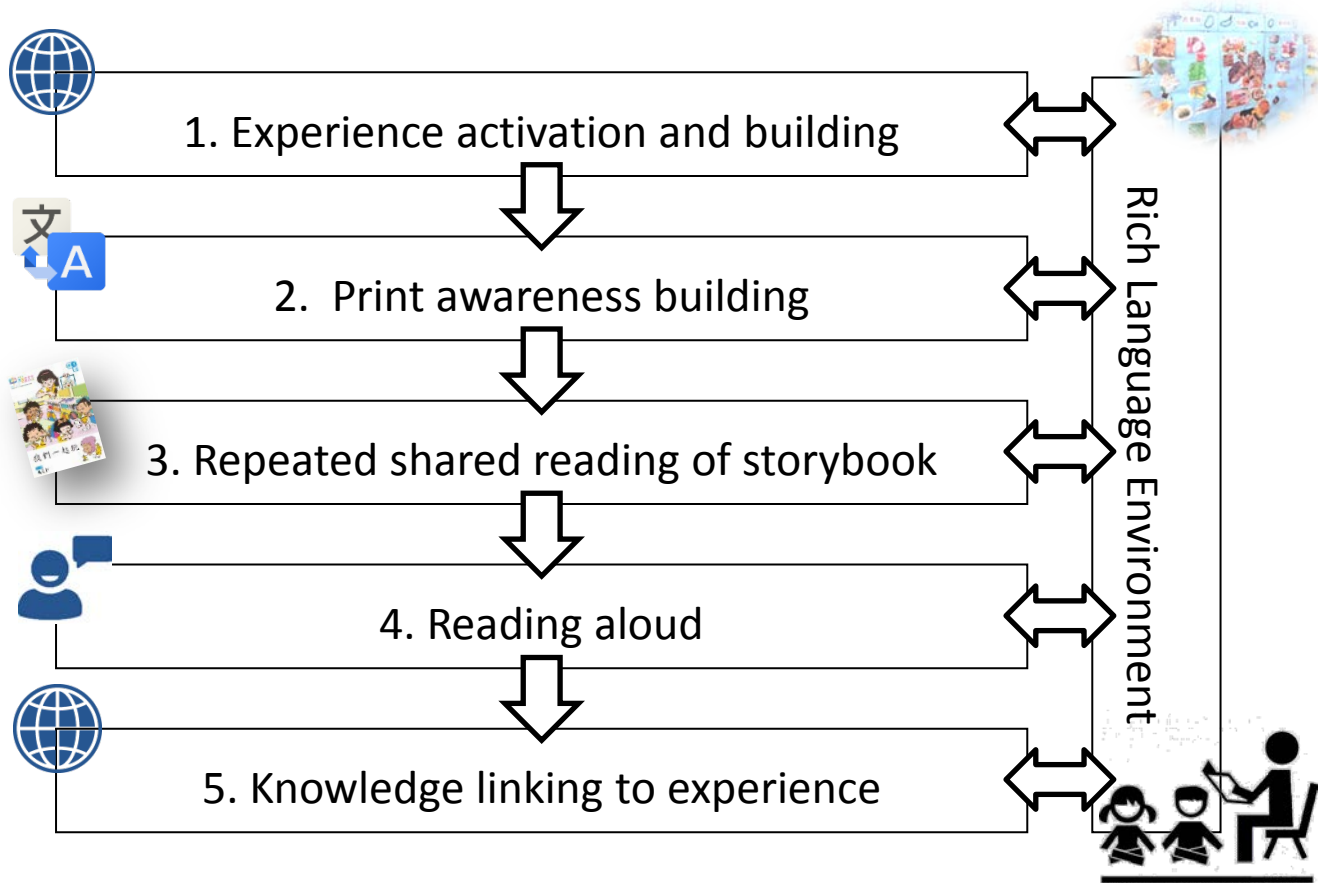

- 幼稚園熟悉「主題」的觀念
- 主題側重意義或概念，不刻意連繫語言形式
- 主題忽略日常經驗，較重視價值和知識，例如：
- 食物→營養；職業→人際互相幫助與關懷；水→珍惜地球
- 藉「主題」落實「框架」

級別	主題					
K1	認識自己	家庭	食物	社區	交通	動物
K2	朋友	職業	健康與疾病	交換	運動	科學
K3	情感	表達	大自然	買賣與金錢	季節	升小一

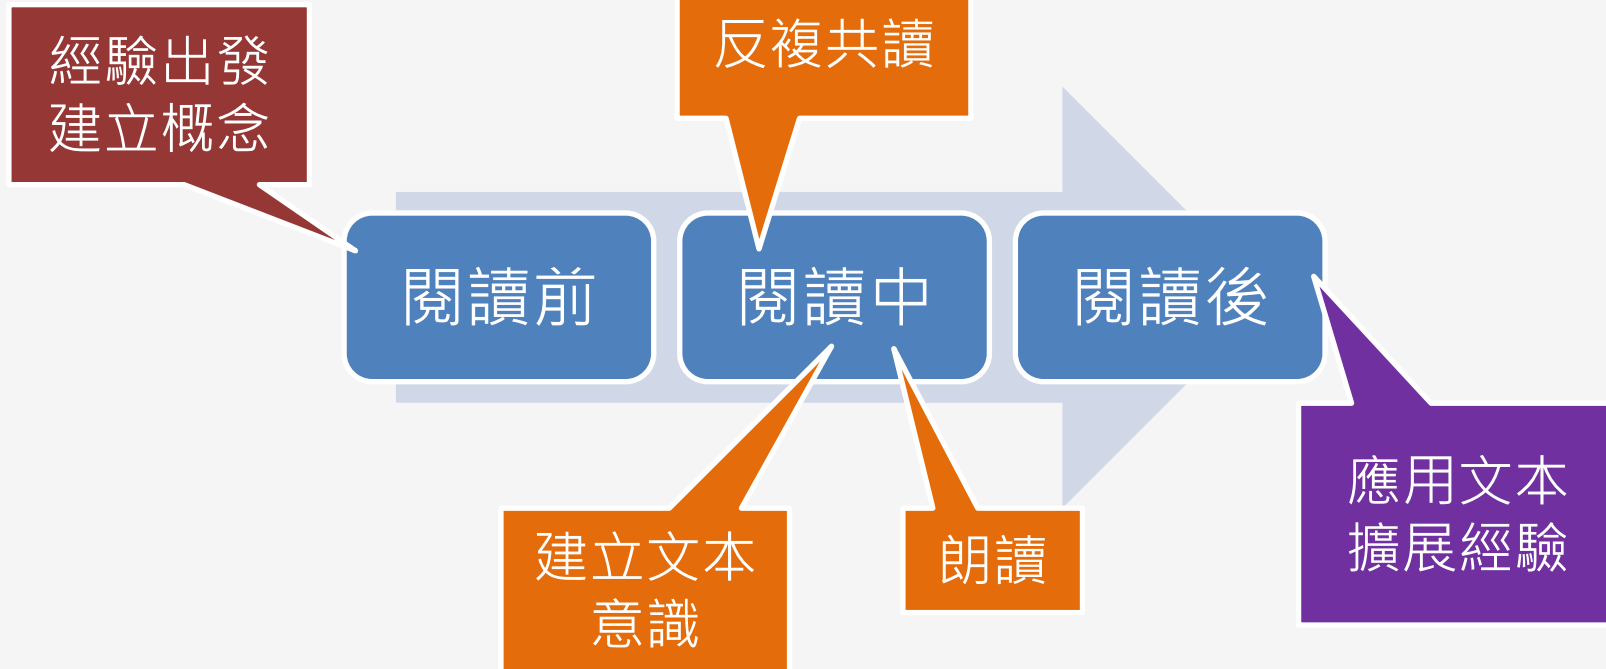

## 故事圖書的設計原則

- 語文焦點（語義框架）
- 文化回應（幼兒經驗）
- 故事圖式發展（故事結構）
- 童趣
- 價值觀
- 學與教空間

## Engage Children with Print

Teacher: This book is *Spot Bakes a Cake*. Sandi brought this to school today and said we could read it. This looks very good! It looks like Spot is going to make a cake in this one. Let's see what happens. (*Opens book to the first page and reads text on the first page.*) I was right. They are going to make a cake for Dad's birthday. What kind of cake do you think they'll make?

CHILDREN: (*Call out various options.*)

TEACHER: I think it will be chocolate. We'll have to find out. (*Turns the page and reads text on the next page.*)

## Engage Children with Print

MOTHER: This book is called *Spot Bakes a Cake*. We haven't read this one before.

SANDI (3 years): But we read a different one about Spot's school.

MOTHER: That's right. We have read the book about Spot going to school. This one's called *Spot Bakes a Cake*. That's the title right there. Do you know this word (*pointing to the word Spot*)?

SANDI: Yep, that says Spot (*pointing to the word Spot*).

MOTHER: Wow, you're right. I guess you've seen that word. Let's try to do all the words. Read them with me, OK?

SANDI AND MOTHER: (*in unison as the mother points to each word in the title*) *Spot ... bakes ... a ... cake.*

Barbara Park

## The Big Book Trend— A Discussion with Don Holdaway

*Park:* Shared book experience and the use of powerful text in enlarged form with beginning readers is currently receiving a great deal of interest within the context of natural approaches to literacy. These strategies and materials build on pre-school experience with print and induce an immediate, confident and enthusiastic response from children.

*Holdaway:* Yes, much of the print in the environment to which children have been attending since babyhood tends to be large, colorful, and well designed. Signs, advertisements, and print on TV have these qualities of visual impact for very sound economic and psychological reasons—they *work* in controlling attention. But it is the learning possibilities of using these dominant print forms which embody the real purposes of so-called “shared book experience” techniques. The natural setting of young children gathered around a big book or chart in a shared experience of literary pleasure with the teacher offers the possibility of powerful learning within a context of satisfying meanings. Like the bedtime story situation, this learning environment is trusting, secure, and expectant. It is free from competition, criticism and constant correction, and sets up a natural intimacy between the teacher and the children.

*Park:* When teachers understand the dynamics of this teaching situation which is

## 反復共讀 Repeated Shared Book Reading

*Holdaway:* Most simply, the model lying behind shared book experience procedures is that of developmental learning as displayed in the bedtime story situation, in learning the spoken language, and in the mastery of other early developmental tasks.

It is helpful to distinguish three phases of experience through which a favorite book passes in the bedtime story: First, there is a successful introduction to the book for the purpose of enjoyment. There *may* be considerable participation and questioning by the infant in a very relaxed and un-pressured way. Applied to the classroom, this first introduction presents invaluable opportunities for involving the children naturally in anticipating both meanings and vocabulary, and in decoding *some* words in the text. But essentially, the experience must remain one of shared pleasure. Second, the infant demands many repetitions over the next few days or weeks—the “read-it-again” phenomenon. In the classroom this repetition-on-demand presents ideal opportunities for focussed repetition and for increased participation in reading the text. (You could say that repetition-on-demand replaces or rehumanizes drills.) It is here that enlarged print—the big book—becomes of the first importance. All children should be able to see the text clearly, and the teacher should use careful pointing and masking to focus attention on appropriate aspects of the print. In this way, the strategies of reading are taught and exemplified within a deeply meaningful context. Third, the infant spends many happy hours independently with the favorite book, role-playing as reader and recreating the familiar experience with increasing sophistication. In the classroom, the children are provided ample time for independent reading of their favorite stories. As in the model situation, much of this independent reading is self-selected and self-

to discuss the books with them. They taught child care providers and a new way to discuss books. **1**

PEER (1) is a way of interacting with children using books—called the PEER sequence. It uses five types of prompts to use during CROWD. The PEER sequence always operates within the context of following the child's interests, expectations, and needs. Each time through the sequence is light and fun.

Parent (P) initiates an exchange about the book.

Child (C) responds, and Parent (P) responds, and Parent (P) asks a question to check that the child understands the book's learning.

Example: A Mother for Choco: **1** "What is Mrs. Bear doing?" (Wh-prompt. See below.)

Child (C) responds: "She's on her toes and picking up her book." (Parent (P) expands)

Parent (P) asks: "What is Mrs. Bear doing?" (Parent (P) asks)

Adult (A) responds: "That's right, and she's putting it in her basket." (Evaluates and expands)

Child (C) asks: "The CROWD questions\* include Completion questions about language used in the book, for example, 'Choco talked with the Penguin. He has \_\_\_\_\_ (wings) just like me!'"

Parent (P) asks: "Recall questions relate to the book, for example, 'Do you remember how the book ended for Choco?'"

Open-ended questions to initiate talk about a book and to focus on the book, for example, 'What is happening in the book?'"

Wh-questions to teach new vocabulary, for example, 'No matter where Choco couldn't find a mother who looked like him. What is a 'search'?'"

Distancing questions that help children relate to the material in the book to their own lives, for example, 'Does everyone in your family look the same? How do you think Choco's family looking different?'"

\*The crowd questions are for older preschoolers. Use "wh" questions and then open-ended questions for older preschoolers and early three-year-olds.

# 對話式閱讀 (Dialogic reading) : PEER + CROWD

# Dialogic Reading Strategy 1 : “PEER”

	Illustration / Example
Prompt	“What is this?”
Evaluate	“You are right! It is a cat!”
Expand	“How does the cat look like?” “The cat has a long tail and it is brown in colour.”
Repeat	‘Now you say it: “The cat has a long tail and it is brown in colour.”’

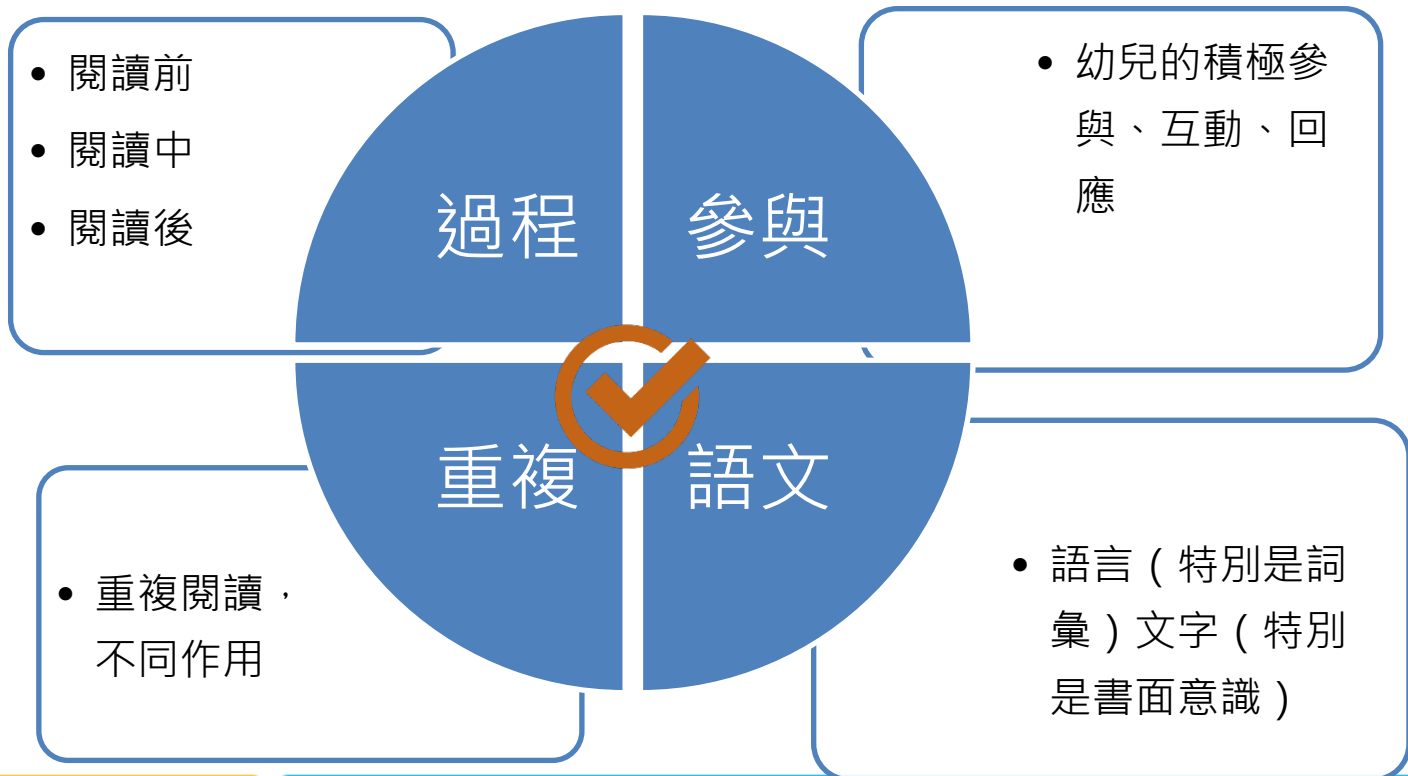

## Dialogic Reading Strategy 2 : “CROWD”

	Illustration / Example
Completion Prompt	“They are standing under the _____.”
Recall Prompt	“Do you remember what did they eat before going to the park?” (Recall something about the story)
Open-ended Prompt	“What do you see on this page?” (Broad questions)
Wh- Prompt	“What are they talking about?” (Wh- who, what, where, when, why)
Distancing Prompt	“What else in real life grow on tree too?” (make connection with child’s experience)

# 分享閱讀 Shared Book Reading 須：

## Pedagogy- Reading aloud as fluency instruction

Reading fluency is a child's ability to read a book or other text correctly, quickly, and with expression. A fluent reader (1) doesn't have to stop and "decode" each word, (2) can read most of words automatically, (3) focus attention on what the story or text means. Fluency is critically important — it is **the bridge between Decoding words and Understanding** what has been read.

字由部件組成，不是筆劃！

貴姓？

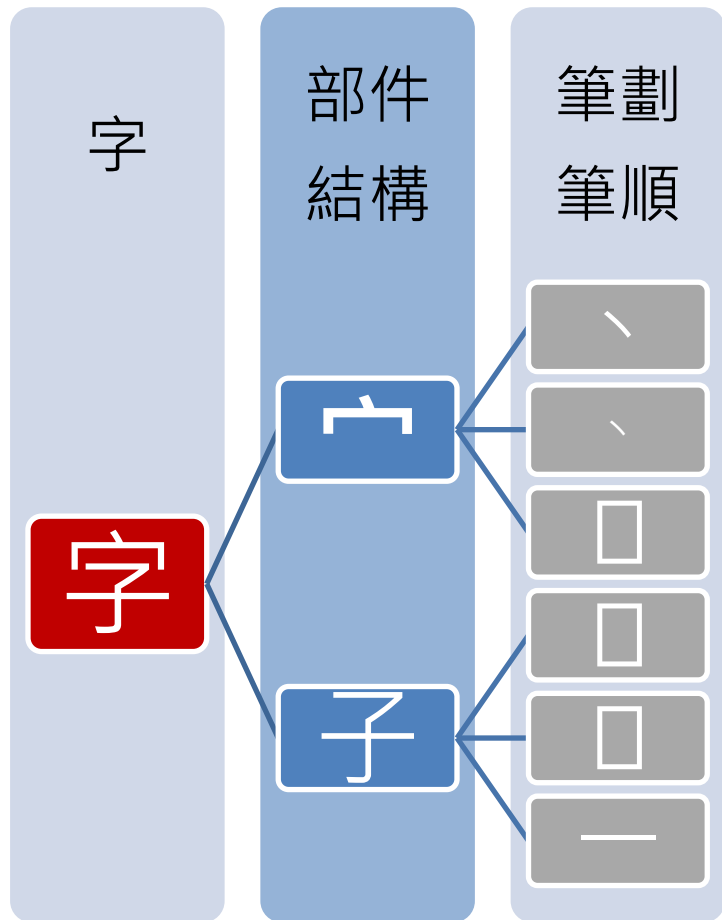

姓林。

- 雙木，林。
- 林，左邊一橫一豎一左撇一右捺，右邊教係一橫一豎一左撇一右捺。

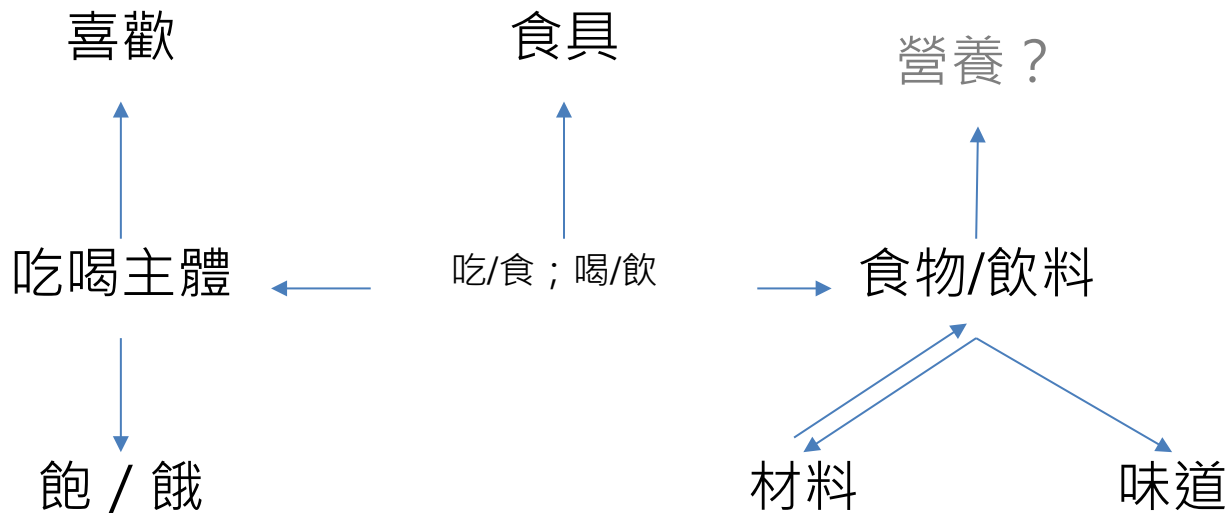

## ❖ 漢字部件

- 重點：漢字直接由常帶意義的部件構成。部件才由筆劃構成，筆劃純粹形式，無義。
- 注意：漢字極多，部件有限，學習數量有限的部件，以學習數量龐大的漢字。筆劃與漢字不直接從屬，無助以簡馭繁。選定常用且構字率高部件為學習範圍。
